WHY CHOOSE ACE?

ACE Polystyrene Products Pty. Ltd. is a mature manufacturing company, having been in the building and construction industry now for over 16 years.

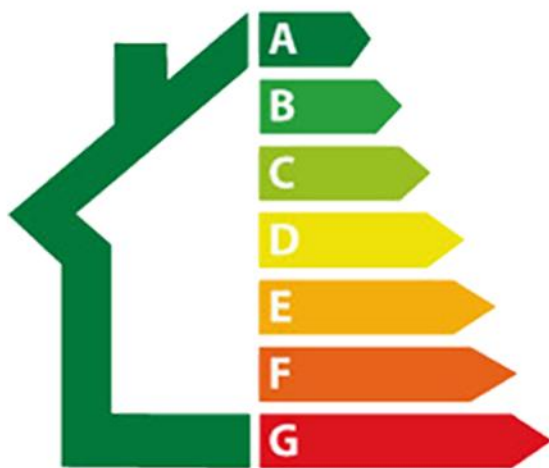

We have noticed recently - especially in the last 5 years - that builders and home owners alike have been constantly seeking ways to both lower their energy consumption and be environmentally friendly.

One of the easiest and most efficient solutions to both these needs is the use of polystyrene panels for building construction - from the use of waffle pods in the foundation of a building to using polystyrene panels for the actual building walls.

We find that the majority of builders and home owners love using this technique and are always praising all the benefits of polystyrene in their constructions.

POLYSTYRENE:

Weather Proof, Sound Proof, Water Proof, Strong Light Weight, Flexible and Very Energy Efficient

All these benefits are the reason why we began manufacturing polystyrene products in the first place, and we aim to make polystyrene use more and more practical as it grows and gains popularity.

ACE Polystyrene Products Pty. Ltd. manufactures all its polystyrene material products here locally and is 100% Australian Owned and Operated.

ACE WALL PANELS

Sizes Available

2500mm x 1200mm x 40mm
2500mm x 1200mm x 50mm
2500mm x 1200mm x 75mm
2500mm x 1200mm x 100mm

5000mm x 1200mm x 75mm
5000mm x 1200mm x 100mm

Custom Sizes

Length up to 5000mm
Width Up to 1200mm
Thickness Up to 600mm

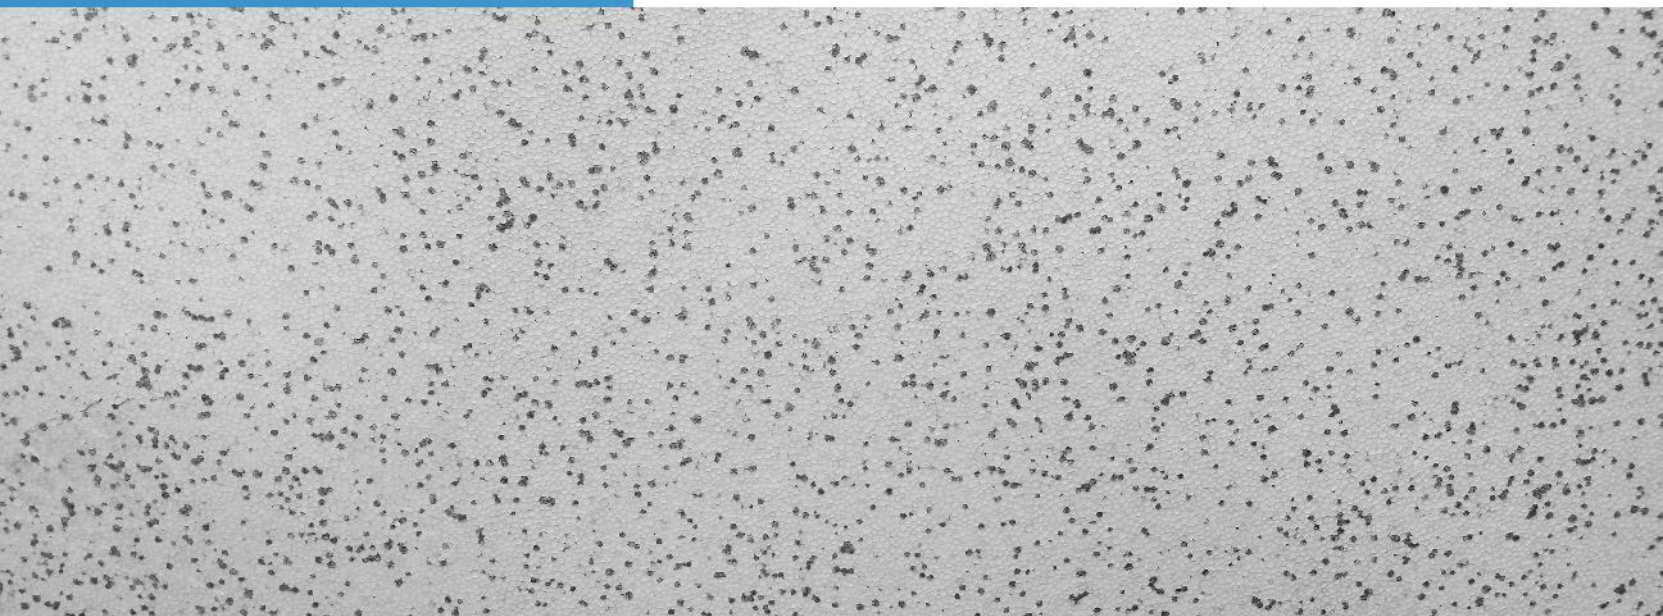

Grey Foam Panels

ACE Wall Panels are grey foam panels made from a high density, high strength polystyrene material.

These panels are M Grade Fire Retardant, light in weight yet still very strong and sturdy. They are Weather Resistant, offer excellent thermal insulation as well as low moisture absorbency.

ACE Wall Panels are not only a wall panel system, but also are perfect for insulating cool rooms, ceilings as well as in flat and inverted roofs.

Suitable for Residential & Commercial Applications.

ACE WALL PANELS

Sizes Available

2500mm x 1200mm x 40mm
2500mm x 1200mm x 50mm
2500mm x 1200mm x 75mm
2500mm x 1200mm x 100mm

5000mm x 1200mm x 75mm
5000mm x 1200mm x 100mm

Custom Sizes

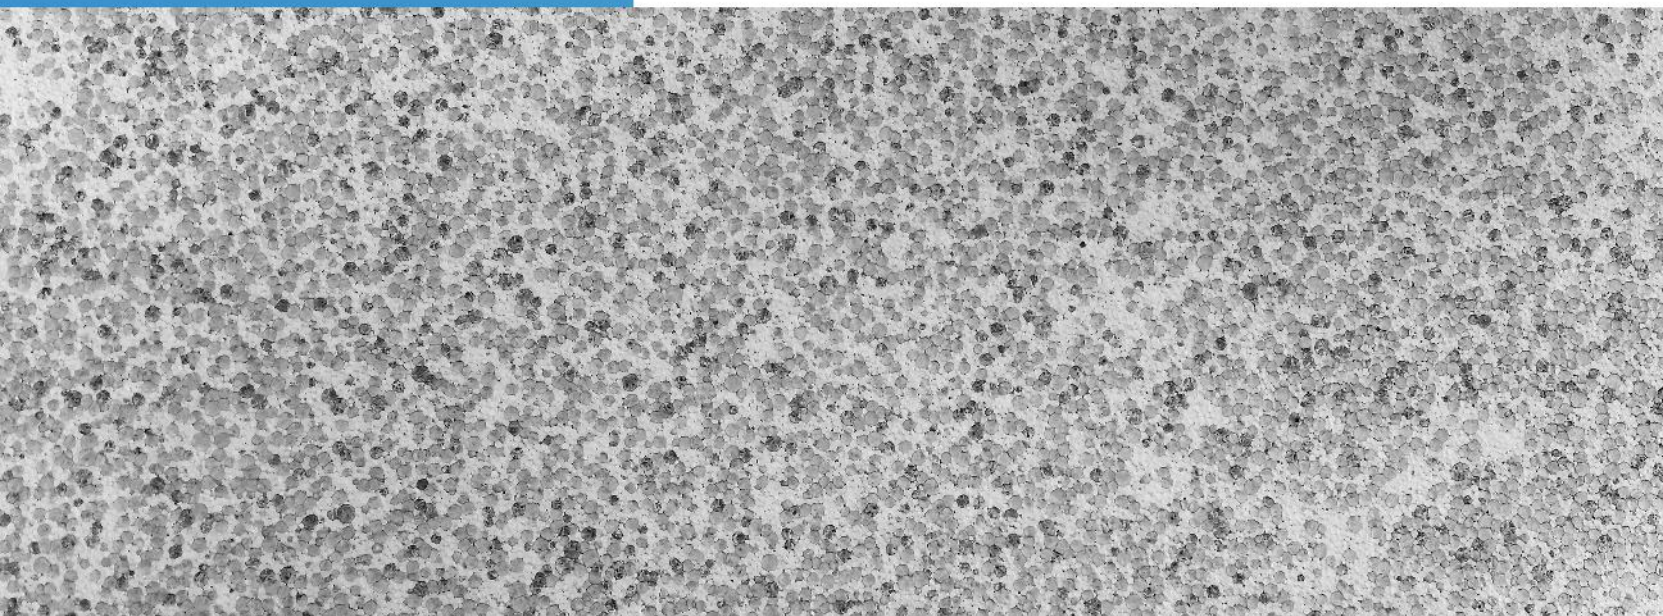

Length up to 5000mm
Width Up to 1200mm
Thickness Up to 600mm

Features and Benefits

- Designed to be rendered and painted
- Lightweight for easy installation
- Strong and sturdy for long-lasting applications
- Weather resistant
- Low water absorption
- Provides thermal insulation

We can manufacture different sizes and thicknesses for specific custom orders.

This panel can be ordered Plain or Pre-Coated.

ACE WAFFLE PODS

Sizes Available

1100mm x 1100mm x 300mm
1100mm x 1100mm x 225mm

Why Choose ACE Waffle Pods?

ACE Waffle Pods are both strong and lightweight.

They are designed specially for concrete slabs and are suitable for both commercial and residential use.

Waffle Pods are installed under concrete slabs , they provide both support and reduction of soil movement as well as greatly reducing the amount of concrete required for a build.

ACE WAFFLE PODS

Quality Manufacturing

Complies with
Australian Building Codes
and All Australian Standards

Features and Benefits

- Lightweight and easy to handle
- Reduces the effects of soil movement
- Reduces amount of concrete needed
- Strong and Durable
- Low Water Absorption
- Recyclable (Sustainable Material)
- Manufactured in Australia
- Fire Retardant Grade Raw Material

ACCESSORIES

Accessories for Our Pods and Panels

- Fiberglass Mesh
- Screws
- Washers
- Cans of Expandable Foam

Tools of the Trade

We also offer a large range of quality tools for renderers and tradespeople .

From floats, protection tapes, masking films to drill mixers and trowels and much more
